BTTM Labs Token: BTTM White Paper

Section 1: Introduction

BTTM Labs & BTTM Token: Empowering Users in the Blockchain Ecosystem

1.1 BTTM Labs

BTTM Labs is a prominent technology-driven company at the forefront of blockchain and cryptocurrency innovation. With a strong focus on leveraging cutting-edge technology, BTTM Labs has established itself as a leader in the industry. Their recent launch of the BTTM Token further solidifies their commitment to providing a comprehensive and rewarding ecosystem for users. The BTTM Token offers a range of utility features, including staking, boost rewards, discounted trading fees, free withdrawals, loyalty rewards, rewards tokens, and governance capability. These utilities are designed to enhance user engagement, incentivize participation, and create a seamless experience within the BTTM Labs ecosystem.

1.2 BTTM Token

The BTTM Token functions as the foundation of the ecosystem, granting users various benefits and functionalities. Through staking tokens and holding a certain quantity of BTTM tokens, users can earn additional rewards. Furthermore, the token provides discounted trading fees, offering cost-saving advantages to users operating within the ecosystem. Additionally, both crypto assets and local currency can be withdrawn without fees, facilitating the seamless transfer of assets. Loyalty rewards, rewards tokens, and voting rights further encourage user engagement and instill a sense of ownership within the ecosystem. With the inclusion of BTTM Labs and the BTTM Token, users are able to explore the immense potential of blockchain and cryptocurrencies in a manner that is both rewarding and user-centric.

Overcoming the Challenge: BTTM Labs' Solution for Blockchain Adoption

1.3 Overcoming Challenges: Simplifying Blockchain Adoption for Mainstream Users

   Background on the growing significance of blockchain technology:

Blockchain technology has gained significant attention and recognition in recent years. Its decentralized and immutable nature has the potential to revolutionize various industries, including finance, supply chain management, healthcare, and more. However, despite its potential, the widespread adoption of blockchain technology still faces several challenges.

One of the key challenges is the lack of user-friendly and comprehensive platforms that provide seamless integration with the blockchain ecosystem. Users often struggle to navigate complex processes, manage their digital assets securely, and access the full range of benefits that blockchain technology offers. This challenge hinders mainstream adoption and limits the potential impact of blockchain technology on various sectors.

1.4 BTTM Labs: Empowering Users and Driving Mainstream Adoption of Blockchain Technology

BTTM Labs recognizes the challenges associated with blockchain adoption and aims to provide a comprehensive solution. With their expertise in technology-driven solutions and their focus on blockchain and cryptocurrencies, BTTM Labs is well-positioned to address these challenges.

Through their platform and the launch of the BTTM Token, BTTM Labs offers a user-friendly and integrated ecosystem that bridges the gap between traditional users and the world of blockchain technology. By providing a range of utility features such as staking, boost rewards, discounted trading fees, free withdrawals, loyalty rewards, rewards tokens, and voting rights, BTTM Labs empowers users to easily engage with the blockchain ecosystem and derive maximum value from their digital assets.

By offering a seamless and intuitive platform, BTTM Labs enables users to navigate the complexities of blockchain technology effortlessly. Users can securely manage their digital assets, participate in various activities, and benefit from the advantages of blockchain technology in a user-centric manner. This comprehensive solution provided by BTTM Labs has the potential to drive mainstream adoption of blockchain technology by removing barriers and creating an accessible and rewarding experience for users.

Section 2: BTTM Labs Vision & Value Proposition

2.1 Vision

At BTTM Labs, our vision is to drive the widespread adoption and utilization of blockchain technology by creating a user-centric and seamless ecosystem. We aim to empower individuals and businesses, removing barriers and simplifying the complexities associated with blockchain adoption. Through innovative solutions and a focus on cutting-edge technology, we envision a future where blockchain becomes an integral part of everyday life, revolutionizing industries and enhancing trust, transparency, and efficiency on a global scale.

2.2 Value Proposition

User-Friendly Platform: BTTM Labs offers a user-friendly interface, simplifying blockchain technology adoption.

Comprehensive Ecosystem: Our platform provides a wide range of utilities and functionalities, covering various aspects of blockchain engagement.

Enhanced Security: BTTM Labs prioritizes the security of user assets and transactions.

Maximizing Value: With the BTTM Token, users can unlock additional value and benefits, maximizing returns.

Streamlined Processes: We simplify activities like trading, withdrawals, and ecosystem participation.

Innovation and Technology-Driven: BTTM Labs embraces emerging technologies and leverages them for continuous platform enhancement.

Driving Mainstream Adoption: Our focus is to remove barriers and create an accessible environment for wider blockchain acceptance.

Trust and Transparency: BTTM Labs ensures transparent processes, fostering trust within the ecosystem.

Community Involvement: Users have a voice through features like voting rights, shaping the ecosystem's future.

Support and Education: We provide excellent support and educational resources to empower users with blockchain knowledge.

Section 3: Bittime Token (BTTM)

3.1 Overview

The BTTM Token is an essential component of the BTTM Labs ecosystem, offering users a wide range of benefits and functionalities. Currently integrated with Bittime Platform, the token provides exclusive features such as discounted trading fees and staking opportunities. Holders of the BTTM Token can actively participate in the community and earn additional rewards within the ecosystem. As the ecosystem continues to expand, the utility of the BTTM Token will grow, introducing new opportunities for users to engage and contribute. This may include voting rights, loyalty programs, and an expanding range of rewards and incentives. The BTTM Token serves as a valuable tool that empowers users, enabling them to access the full potential of the BTTM Labs ecosystem and fostering a vibrant and collaborative community.

BTTM Labs is dedicated to creating a seamless and rewarding experience for its users. With the integration of the BTTM Token within the ecosystem, users can unlock exclusive features and actively participate in the platform's growth. By offering discounted trading fees, staking opportunities, and various rewards, BTTM Labs encourages user engagement and ensures a value-driven environment. As the ecosystem evolves, the utility of the BTTM Token will continue to expand, providing users with even more benefits and opportunities. BTTM Labs strives to create a dynamic and inclusive ecosystem where users can contribute, collaborate, and reap the rewards of their active participation.

BTTM Labs Token (BTTM) is built on the Ethereum blockchain utilizing the ERC-20 standard. Ethereum provides a robust and secure platform for the issuance and management of tokens, ensuring transparency and interoperability within the broader blockchain ecosystem.

3.2 Underlying Technology and Blockchain Platform

The utilization of the ERC-20 standard allows BTTM tokens to be seamlessly integrated with various wallets, exchanges, and decentralized applications (DApps) that support ERC-20 tokens. This compatibility enhances the accessibility and liquidity of BTTM, enabling users to easily store, trade, and interact with their tokens.

By leveraging Ethereum's infrastructure, BTTM benefits from the scalability, security, and established developer community of the Ethereum network. This ensures a reliable and efficient token ecosystem for Bittime and its users.

Furthermore, Bittime is committed to continuously exploring innovative technologies and blockchain platforms to enhance the functionality and capabilities of BTTM. As the industry evolves, Bittime remains agile in adapting to new advancements that offer improved scalability, speed, and security, ensuring the long-term viability and success of the BTTM token.

3.3 Token Utility

a. **Staking**

In the BTTM ecosystem, users will have access to three staking products:

BTTM Staking: By staking their PoS tokens, users will earn rewards in the form of BTTM tokens. This staking mechanism not only supports the growth of BTTM but also provides users with a passive income stream.

Bittime Staking: This product offers users easy access to stake their PoS tokens. The benefits and APY associated with this staking option increase based on the user's BTTM holdings, encouraging greater participation and engagement.

Bittime Earn: This staking product provides users with flexibility as there is no lockup period. Users can stake their tokens and earn rewards daily. Similar to Bittime Staking, the benefits and APY are based on the user's BTTM holdings, allowing them to maximize their potential earnings while enjoying the freedom to manage their investments.

b. ***Discounted Trading Fees***

Holders of BTTM can enjoy reduced trading fees when they use the token to pay for trading services on the platform.

c. ***Free Withdrawal Quota (for both Crypto Assets & Rupiah)***

Get a daily quota to free send all assets to supported blockchains on Bittime by staking BTTM; Get daily quota for free Rupiah withdrawal to your registered bank account by staking BTTM

d. ***Loyalty Rewards***

Holders of BTTM receive loyalty rewards based on their token holdings or transactional activity. These rewards can be in the form of additional tokens, discounts, or exclusive privileges.

e. ***Rewards Token***

Users can earn BTTM Token after finishing several tasks / missions in the Bittime platform. With BTTM, Bittime aims to create an engaged and supportive community of users who benefit from holding and utilizing the token. By aligning the interests of token holders and the platform's growth, Bittime strives to enhance the overall trading experience and provide additional value to its users.

f. ***Governance***

BTTM Token holders will be granted voting rights on platform governance issues, such as listing new tokens, fee structures, or platform upgrades.

| Tier	Amount of BTTM Hold	Boost Staking APY	Discounted Trading Fee	Daily Free Crypto / Rupiah Withdrawal
0	0	No Boost standard staking rewards	No Discount	0 wd/day
1	1,000	Boost 1 higher staking rewards	VIP1 25% Discount	1 wd/day
2	5,000			2 wd/day
3	10,000			3 wd/day
4	25,000			5 wd/day
5	50,000	Boost 2 super staking rewards	VIP2 50% Discount	10 wd/day
6	100,000			20 wd/day
7	250,000			40 wd/day
8	500,000			80 wd/day
9	750,000			100 wd/day
10	1,000,000			Unlimited wd/day

BTTM's tiered staking offers a range of exciting benefits as you increase your BTTM holdings. The higher your tier and the more you hold, the greater your rewards become. You can enjoy boosted staking APY, discounted trading fees, and daily free crypto/Rupiah withdrawals.

3.4 BTTM Token Allocation & Vesting Schedule

The token allocation and vesting schedule ensure a fair distribution of BTTM tokens, while the involvement of the Bittime team and strategic investors demonstrates long-term commitment and confidence in the platform's success.

Total supply of Bittime token is 1,000,000,000 BTTM, with the allocation as follows:

BTTM Token Allocation
Allocation	Token Allocation (%)	Token Allocation (BTTM)	Vesting Schedule	
Community Rewards	5%	50,000,000	Immediate release of 10% upon token launch	Remaining 90% to be vested on demand
Team	20%	200,000,000	Locked for 6 months	Vested linearly over 48 months, with equal monthly releases
Early Investors	15%	150,000,000	Locked for 6 months	Vested linearly over 24 months, with equal monthly releases.
Public Sale	10%	100,000,000	No lockup	-
Ecosystem Development	20%	200,000,000	Immediate release of 2% upon token launch	Remaining 98% to be vested linearly over 36 months, with equal monthly releases.

				Remaining 95% to be
Treasury for Staking Incentives	30%	300,000,000	Immediate release of 5% upon token launch	vested linearly over 48 months, with equal monthly releases.

Token Allocation and Vesting Schedule

The BTTM token allocation encompasses rewarding community participation, attracting early investors, facilitating private and public sales, supporting ecosystem development, and incentivizing token staking.

- Community Rewards: 5% of the total token allocation, equivalent to 50,000,000 BTTM tokens, is allocated for community rewards. Upon token launch, 10% of this allocation will be immediately released, while the remaining 90% will be vested on demand.

- Team: 20% of the total token allocation, equivalent to 200,000,000 BTTM tokens, is allocated for the team. These tokens will be locked for a period of 6 months. After the lock-up period, the tokens will be vested linearly over 48 months, with equal monthly releases.

- Early Investors: 15% of the total token allocation, equivalent to 150,000,000 BTTM tokens, is allocated for early equity investors, pre-seed, and seed investors. These tokens will be locked for a period of 6 months. After the lock-up period, the tokens will be vested linearly over 24 months, with equal monthly releases.

- Public Sale: 10% of the total token allocation, equivalent to 100,000,000 BTTM tokens, is allocated for the public sale. There is no lock-up period associated with these tokens.

- Ecosystem Development: 20% of the total token allocation, equivalent to 200,000,000 BTTM tokens, is allocated for ecosystem development. Upon token launch, 2% of this allocation will be immediately released, while the remaining 98% will be vested linearly over 36 months, with equal monthly releases.
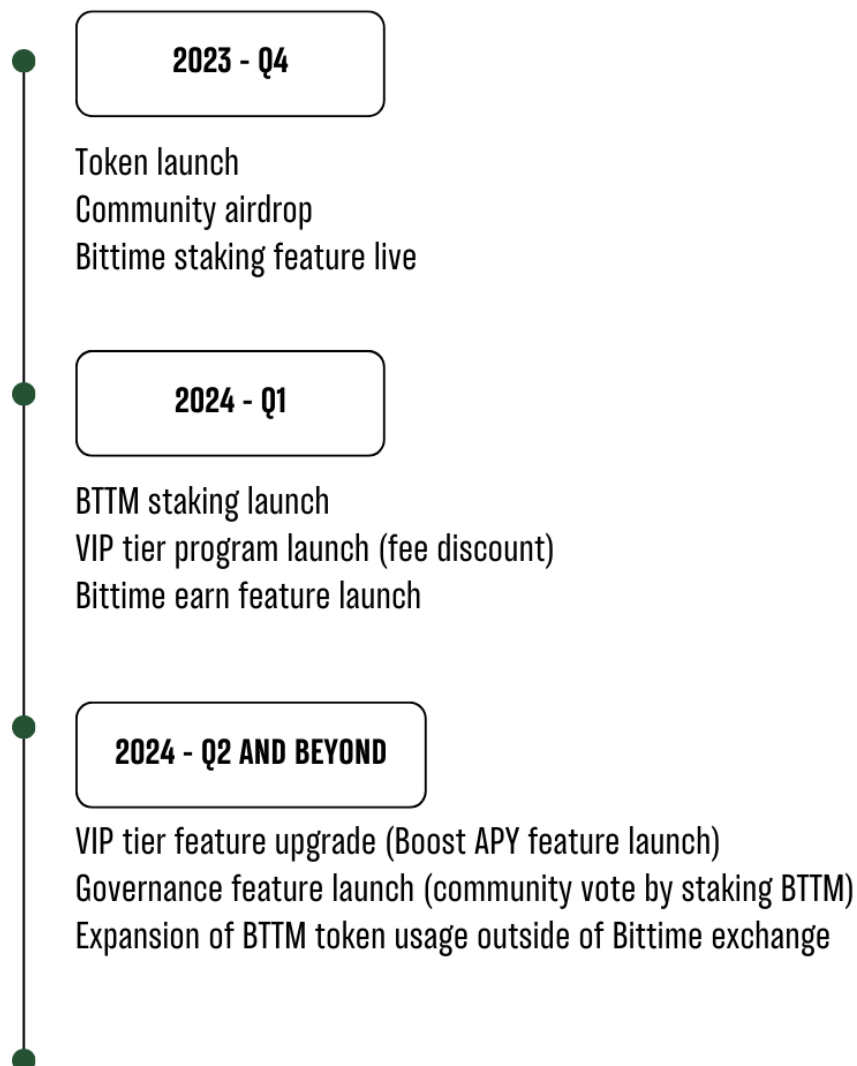

- Treasury for Staking Incentives: 30% of the total token allocation, equivalent to 300,000,000 BTTM tokens, is allocated for the treasury to provide staking incentives. Upon token launch, 5% of this allocation will be immediately released, while the remaining 95% will be vested linearly over 48 months, with equal monthly releases.

Buyback and Burn Mechanism

The BTTM token employs a Buyback and Burn mechanism to enhance value for token holders. When the project generates profits, up to 20% of the token supply can be bought back from the market and permanently burned. This reduces the token supply, potentially increasing its scarcity and value over time. The mechanism aligns project profitability with token holder interests, creating a deflationary effect and potential price appreciation. The

actual burn amount depends on quarterly profits, with a maximum burn limit of 20% of the token supply.

3.5 BTTM Labs Roadmap

2023 - Q4

Token launch
Community airdrop
Bittime staking feature live

2024 - Q1

BTTM staking launch
VIP tier program launch (fee discount)
Bittime earn feature launch

2024 - Q2 AND BEYOND

VIP tier feature upgrade (Boost APY feature launch)
Governance feature launch (community vote by staking BTTM)
Expansion of BTTM token usage outside of Bittime exchange

Section 4: BTTM Labs: Team

Overview of BTTM Labs' team

Section 5: Risks & Disclaimers

5.1 Risks

1. Market Volatility: The value of the BTTM Token and any associated rewards or benefits can be subject to significant price fluctuations and market volatility. Users should be aware that the value of their BTTM Tokens may change rapidly, and there is a risk of potential financial loss.

2. Regulatory and Legal Considerations: The regulatory landscape for cryptocurrencies and blockchain technology is evolving and can vary across jurisdictions. Users should carefully assess and comply with applicable laws, regulations, and restrictions related to the acquisition, holding, and use of BTTM Tokens.

3. Technology Risks: Blockchain technology, including the BTTM Labs ecosystem, is subject to potential technical vulnerabilities, hacking, and cyber threats. While BTTM Labs implements security measures, there is no guarantee of absolute protection against such risks.

4. Third-Party Risks: BTTM Labs may rely on third-party services, partners, or platforms. Users should acknowledge that the performance and reliability of these third parties can impact the functionality and security of the BTTM Token ecosystem.

5. Investment Risk: Acquiring and holding BTTM Tokens involves investment risks. Users should carefully evaluate their financial situation and risk tolerance before engaging in any token-related activities.

5.2 Disclaimer

Disclaimer: BTTM Labs provides the BTTM Token and associated utilities and benefits on an "as is" and "as available" basis. BTTM Labs does not provide any warranty or guarantee regarding the functionality, security, value, or performance of the BTTM Token. Users acknowledge and assume all risks associated with the acquisition, holding, and use of BTTM Tokens. BTTM Labs disclaims any liability for any loss, damage, or inconvenience caused by the use or reliance on the BTTM Token or the BTTM Labs ecosystem. Users should conduct their own research, seek professional advice, and exercise caution when engaging with the BTTM Token and the BTTM Labs ecosystem.
